Grand AfricArena Summit

Now in its sixth year, the 2022 AfricArena Summit will take place at the Old Biscuit Mill in Woodstock, Cape Town, South Africa on 08 and 09 November. Its mission is to bring together the leading corporates and investors investing in the continent's tech ecosystem, with the most talented entrepreneurs from across Africa. Winners from regional events compete on stage, where the best minds from around the world deliver keynotes, panel discussions, and so much more. Join the movement and be part of the next tech revolution.

The Founders Bootcamp

Operated by French South African Tech Labs will be taking place at Workshop 17, Watershed from the 6th to the 7th of November. The 2-day program will be attended by at least 50 high-level startups, who will be looking forward to networking with fellow startups. The program also features workshops and an opportunity for startups to share innovative ideas and get expert advice from investors. For the startups looking forward to this event, this is an opportunity for an unfiltered exchange of innovative ideas and to initiate collaboration within the ecosystem.

The VC Night & Innovation Night

The VC Night is an event where startups and investors come together for a networking event, where startups share their ideas with potential investors, in an informal setup. A not to be missed event is the Innovation Night. This closing event of the summit brings together tech innovators for an evening of creative exchange of ideas over a cocktail or drink, mix and mingle, network, and form new connections.
